

IMPROVED DAILY LIVING (IDL)

When can you use CORE FUNDING and what is funded?

Therapy -related health supports are normally funded under the support category Improved Daily Living (IDL), to respond to the disability-related health needs of a participant where that care is not the usual responsibility of the health system. **These line items have been temporarily duplicated into the Assistance with Daily Life Support Category so that participants can have greater access to these supports if they need them.**

These support items can be delivered to individual participants subject to the rules set out in this *Price Guide*. As well as direct service provision, these support items can be used to claim for

- **Non-Face-to-Face Support Provision**
- **Provider Travel**
- **Short Notice Cancellations**
- **NDIA Requested Reports.**

These support items have different price limits, depending on the type of allied health professional who delivers the support.

Exercise Physiology has not been included and cannot be funded from CORE unless the provider invoices under the Other Therapy line item. Also, Massage is not a funded support unless massage is directly related to your disability for example, MS.

Please make note if you are receiving Exercise Physiology supports, you need to advise the provider to invoice under the Other therapy line item as listed below. *SPM will not adjust invoices.*
