

## When can I use the therapy line items duplicated in CORE?

**Disability-Related Health Supports** provide care to respond to the disability-related health needs of a participant where that care is not the usual responsibility of the health system. Line items from the Improved Daily Living Support Category have been temporarily duplicated into the Assistance with Daily Life Support Category so that participants can have greater access to these supports if they need them:

**Previously, participants have used these CORE line items to fund additional therapeutic services due to their funds being exhausted (whether for a plan review or emergency circumstances). The NDIA have advised that these temporary line items in CORE can only be used to fund additional supports delivered by an approved Allied Health Professional which relate to:**

- Respiratory supports
- Pressure and wound care
- Continence supports
- Dysphagia supports
