

Quotable Supports – Stated Items

There are several line items across all funded categories that are defined as “Quotable”. When a line item is defined as quotable, this means the support/service and or product should only be provided and claimed for if the support is **specifically stated** in the participant’s plan.

The conditions for Quotable supports are:

- Providers must negotiate a price in a Service Agreement with a participant and provide a written quote for that supply.
- The Quote needs to be provided to the NDIA for approval.
- Once approved, the NDIA will release funds in the participant’s plan for claiming.
- Plan managers are unable to claim against these lines until the above process is completed.

Line Items within the current Price Guide that require quotes are:

Still need help?

A Support Coordinator can help you use your funding correctly and work together with you to get the most out of your NDIS Plan.

If you don't have a Support Coordinator, you can ask to have this included in your next plan – please seek the assistance of a Local Area Coordinator (LAC) to request Support Coordination to be added to your budget. You can find information about who your LAC is and how you can contact them on the last page of your NDIS Plan.
